The diagram illustrates the long division of 206365 by 361. The divisor 361 is positioned below the dividend 206365. The quotient 20 is written above the dividend. The division process is shown in three steps, with red arrows indicating the progression from one step to the next. In each step, the divisor is multiplied by a digit of the quotient, and the result is subtracted from the current portion of the dividend. The final remainder is 5.
