

How to Print Directory and Folders

The image shows a Windows desktop background with a blue sky and clouds. Overlaid on this are two windows. The top window is titled "Administrator: Command Prompt" and shows the following text:

```
Microsoft Windows [Version 10.0.19044.2006]
(c) Microsoft Corporation. All rights reserved.

C:\WINDOWS\system32>cd C:\Users\Administrator\Documents
C:\Users\Administrator\Documents>
C:\Users\Administrator\Documents>
```

The bottom window is titled "print.txt - Notepad" and shows the output of the directory listing command:

```
File Edit Format View Help
Volume in drive C has no label.
Volume Serial Number is 2736-B190

Directory of C:\Users\Administrator\Documents

11/30/2022 09:10 AM <DIR> .
11/30/2022 09:10 AM <DIR> ..
11/30/2022 09:10 AM          0 print.txt
01/07/2022 01:06 PM <DIR>    SQL Server Management Studio
12/07/2018 02:16 PM <DIR>    Tencent Files
               1 File(s)          0 bytes
               4 Dir(s) 151,714,168,832 bytes free
```

The Notepad window also shows a status bar at the bottom indicating "Ln 5, Col 1", "100%", "Windows (CRLF)", and "UTF-8".
