design_interface.vb  design_interface.vb [Design]  WindowsApp2  Form1.vb [Design]

WindowsApp2  (Form1 Events)  Load

```vb
 1  Public Class Form1
 2      Private Sub Form1_Load(sender As Object, e As EventArgs) Handles MyBase.Load
 3
 4          Me.Text = "My First VB2015 Project"
 5
 6          Me.BackColor = Color.Beige
 7
 8          Me.MaximizeBox = False
 9
10          Me.MinimizeBox = True
11          Me.Size = New Size(400, 400)
12          Me.Opacity = 0.85
13          Me.CenterToParent()
14
15      End Sub
16
17      Private Sub Button1_Click(sender As Object, e As EventArgs)
18          CreateMyOpaqueForm()
19      End Sub
20      Private Sub CreateMyOpaqueForm()
21          ' Create a new form.
22          Dim form2 As New Form()
23          ' Set the text displayed in the caption.
24          form2.Text = "My Form"
25          ' Set the opacity to 75%.
```
