

Procedural Writing

Purpose: to teach, to instruct,
to tell "How to" do something.

Examples:

- instruction manuals
- recipes
- rules
- science experiments
- "How to" procedures
manuals

Organization: (4 components)

1. the Goal - (aim/hypothesis) states what is to be done.
2. the Materials - (requirements)
- a list in the order you will need them.
3. the Method - the steps to be done (numbered)
(+ the PROCEDURE)
4. the Evaluation - how is success tested?
