

It's a
small world
New York World's Fair

On the occasion of the opening of the new attraction that was called
"It's a Small World" at the New York World's Fair, we dedicate this
attraction to the memory of Roy E. Disney, who was the driving force
behind the creation of "It's a Small World" and who was the first to
bring the world's children together in a place of harmony and
understanding.

August 8, 1969

Roy E. Disney
