Kutools for Outlook 10.00 – Release notes

-----www.extendoffice.com

Good news! **Kutools for Outlook** 10.00 is released with new features and improvements. You can upgrade to or have a free trial of this version by downloading from here.
Tip: full function & feature, free trail in 6045 days!

1. Close to Minimize
This Close to Minimize feature can prevent Outlook from closing accidentally when clicking on the Close button. It will just minimize Outlook window if you clicking on the Close button when enabling this utility.

2. Message Reminders—(Important-emails-alert)
With this feature, you can set some incoming messages as important emails based on the arriving emails' Subject, Body, Sender name or Sender address. If the new incoming emails matches the rules you created, an alert message will pop out to remind you.

3. Sender Time Zone—Kutools Plus
