Layout

Select boxed or wide layout. Default currently set to **Wide**.

| Default | Wide | Boxed |

Background Color For Page

Controls the background color for the page. When the color value is set to anything below 100% opacity, the color will overlay the background image if one is uploaded. Hex code, ex: #000. Leave empty for default value of **#e2e2e2**. Using default value.

Select Color

Background Image For Page

Select an image to use for a full page background. Currently no default selected. Can be set globally from the **Global Options**.
