

How to Compare Two Documents In Ms Word

The screenshot displays the Microsoft Word 2007 interface with the 'Review' tab selected. The ribbon includes 'Comments' (New Comment, Delete, Previous, Next) and 'Tracking' (Track Changes, Balloons, Reviewing Pane, Final Showing Markup, Show Markup). The 'Compare' group on the right contains 'Accept', 'Reject', 'Previous', 'Next', 'Compare', 'Show Source Documents', and 'Protect Document'. The 'Compared Document' pane on the left shows a document with red underlines indicating changes. The 'Revised Document (later - zainullah)' pane on the right shows the original text without changes.

Compared Document

One day when I was passing through the tank bazaar. I saw a house a fire. It was a very terrible situation. Khamoshpathan The man and women were crying for help. The children were weeping. The fire brigade arrived after a few minute. It started throwing water on the fire. The fire was brought under control within next few minutes. Khamoshpathan home

In the table of content we create paragraph heading table and in caption we create three kind table first equation table 2nd figure table and 3rd one table. So watch complete video and learn how to insert table of figure in ms word 2007 home
