

1. → To get around this table placement issue, enable paragraph marks (as shown in option 2 above.) ¶
2. → Select the paragraph symbol next to the space you want to remove, and change the font size to the lowest possible number (typically 1 pt). ¶
3. → If step 2 doesn't work, change the spacing around the paragraph by going to Paragraph formatting->Indents and Spacing, and change any spacing to zero. ¶

Deleted all but one but delete any amount you need.
