8 April 2017

Tricking
is totally normal
know is good for
Babies don't know
spoonfeed them

At 4-6 months
professional health
Solid Foods"). For
foods should be
graduating to purees
weaning argue that
should offer babies
it encourages self

Here's the problem. There's not much evidence that cereals and purees are good for babies. We don't even have much evidence that they're even safe. Let's start with the question of whether or not cereals and purees are good for babies.

By cereal, I mean the gruel-like preparation called baby cereal. There's nothing wrong

s past the gums
od that you just
ed us this way.
We have to
