

The background of the image is a deep space scene. It features several concentric white lines representing planetary orbits. Various celestial bodies are scattered throughout: a large Jupiter with its characteristic bands is on the left; a Saturn with its rings is on the right; a reddish Mars is at the bottom; a blue and white Earth is at the top; and a small blue planet is at the top right. A large, glowing orange and red nebula or galaxy core is visible in the center-right. The overall color palette is dark with vibrant highlights from the celestial objects.
