

Push an Object to an Array JavaScript

1. Using Push() function

```
array.push(obj, obj2);
```

2. Using splice() function

```
array.splice(2, 0, "L", "K");
```

3. Using unshift() function

```
array.unshift("E", "F");
```

4. Using concat() function

```
const arraynew = array.concat(obj1, obj2);
```
