

# Moon Phase Calendar

Find the moon each day in the sky and draw a picture of what you see. Label the shape you see.

| Sunday                                                                            | Monday                                                                            | Tuesday                                                                           | Wednesday                                                                         | Thursday                                                                          | Friday                                                                             | Saturday                                                                            |
