

Advent calendar template

Teaching notes

- 1.** Give students a front cover (tree or Father Christmas), and a blank template sheet. For an added challenge, give students two blank templates, and they can decorate one themselves.
- 2.** Ask them to write 24 challenges, tasks, revision activities, key features of a text etc. on the template sheet.
- 3.** Encourage students to cut out the numbered windows and then stick the front cover and template sheet together.
- 4.** Encourage them to open a door each day, and complete the challenges, activities or just simply use to revise.
