6. **What does it mean Dereferencing a pointer?**

7. **Is it true that array's name in c is a pointer to the first element in the array?**

8. **What is wrong in this code**

```c
#include <stdio.h>
int main()
{
        int *a;
        *a = 19;

        getch();
    return 0;
    }
```

How do you correct it ?
