

Project Schedule Template

Instructions: To follow is the ‘**Project Schedule Template**’ which is a required element of the RAMP application. **This form will be used in the evaluation of your RAMP grant submission.** Please complete the following, being certain to include all project related activities as well as the time required to complete them. Please add/remove activity rows or milestones as required for your project. There are no set number of milestones or activities required for a milestone. However, if the milestones are not sufficiently described, it may affect the evaluation and scoring of the project. If you have any questions about the Project Schedule, please review the “**RAMP Application: Development of Milestones and Project Schedules**” document or contact the Network Coordinators at jhcrn@jhmi.edu for assistance.
