ASCENT OF THE DRAGONS (PART 1)

The Targaryens, descended from the only survivors of the Doom of Valyria, were based in a former Valyrian outpost called Dragonstone. Having felt forsaken by their gods, the first Targaryens converted to the dominant religion of the era, the Faith of the Seven.

Aegon Targaryen left Dragonstone with his wives Rhaenys and Visenya, who were also his sisters. The trio landed on Westeros with a small army and Aegon's secret weapon: the last three dragons remaining in the world. Aegon handily defeated six of the Seven Kingdoms of Westeros.
