My Calendar Page

Look, now I can configure ICS Calendar directly in the Block Editor!

ICS Calendar Feed(s)

	ICS Calendar Feed URL *	Color (optional)	Label (optional)	Timezone (optional)	
1	🌐 Enter feed URL...	Select Color		Chicago ▾	

Add Another Feed

Be sure you are using the subscribe URL, not a web view URL.

Note: The URL should begin with `https://`. If your URL begins with `http://` or `webcal://`, please change it to `https://` and test the URL by loading it directly in your browser. If this does not download an `.ics` file, your feed may not display properly.

Timezone defaults to your WordPress [Timezone setting](#) if blank.

View

◉ **Month**
month table view (default)

◯ **List**
basic day-by-day list

◯ **Week**
single week table view

◯ **Grid**
day columns with hourly grid

Column Labels

◉ Default for view

◯ **Full** ("Monday")

◯ **Abbreviated** ("Mon")

◯ **Initials** ("M")

Format for day name labels in column headers.

Month Navigation Style
