

Great Question

A calendar built for UX Researchers

The screenshot displays a calendar interface designed for UX researchers. It features a grid with time slots (1 PM, 2 PM, 3 PM) and days of the week (Mon, Tue, Wed, Thu). A dropdown menu titled "Add call link" is open, showing options: Google Meet, Zoom, In Person, and Custom link. A "Custom link" dropdown is also open, showing the URL "webex.com/testcompany/12345". Two "Observer" cards are visible: one for John Doe (john.doe@hooli.co) and another for Andrew Johnson (andrew.johnson@hooli.co). A "In Person" dropdown is open, showing the address "159 Main St, Groton, MA 01450, USA". A "159 West Main Street, Groton, MA 01450, USA" card is also present. The interface includes a "Available" status indicator and a "Afternoons" filter.

Observer

John Doe
john.doe@hooli.co

Observer

Andrew Johnson
andrew.johnson@hooli.co
