

The energy provided by the Sun is vital for the

life in our planet. The Sun is our most important source

of ENERGY !!

Light Energy

The sun provides natural light to the whole planet.

The Sun is our #1 Source of energy on planet Earth

Stored and Transformed Energy

Solar Energy Panels

Transform Solar energy into electric energy for our homes

G. Arenas
Bradfield Elementary

¡Sol, Solecito
calientame un poquito
hoy y mañana
y toda
la semana

ENERGY

FOOD

The food we consume is what provides us with the energy we need to do all we have to do!

Thermal Energy

The sun keeps us warm

I wonder what would happen if the sun stopped sending us its light??

Electric Energy

When precipitation occurs during the water cycle, electric energy is produced!

All trees grow thanks to the Sun's energy

The sun is a star in our galaxy. Our galaxy is the Milky Way
