### Display Settings

The settings below control the display of your calendar. If things don't look right, try switching between the three style sheets from your theme.

There are going to be situations where no out-of-the-box template is 100% perfect. Check out our [our themer's guide](#) for instructions on making modifications.

### Basic Template Settings

**Default stylesheet used for events templates**

Skeleton Styles **4**

Only includes enough css to achieve complex layouts like calendar and week view.

Tribe Events Styles

A fully designed and styled theme for your events pages.
