

Divide by 10, 100 and 1,000

1. Divide the numbers in the place value chart by 100, then match each one to the correct answer.

A.

H th	T Th	Th	H	T	O
	●	●● ●● ●●	●● ●		

138

7,540

B.

H th	T Th	Th	H	T	O
●● ●● ●● ●	●● ●● ●	●● ●●			

75,400

183

4. Jessie has given some clues about her calculation.

My starting number can be divided by 10, 100 and 1,000 without any remainders.

My starting number is greater than 40,000 but is less than $560,000 \div 10$.

The answer has a digit sum which is a multiple of 3.

Investigate two possible calculations.

2. Complete the calculations to work out

5. Imran and Dora are dividing numbers
