CALENDAR NOTES

The Imperial calendar year is 400 days, consisting of twelve months of 32 or 33 days each and six intercalary holidays. These holidays exist outside of the normal sequence of weekdays and months.

The names of the months can be translated as After-Witching, Year-Turn, Plough-Tide, Sigmar-Tide, Summer-Tide, Fore-Mystery, After-Mystery, Harvest-Tide, Brew-Month, Chill Month, Ulric-Tide and Fore-Witching.

The days of the week translate to Workday, Levyday, Marketday, Bakeday, Taxday, Kingday, Startweek and Holiday. However, in current usage these names are largely meaningless.
