

MECCANO

Accessory Parts

ALL Meccano boys, and particularly those who have just taken up the hobby, are reminded that the model-building possibilities of their Outfits will be greatly increased by the addition of extra Meccano parts, which may be obtained from any Meccano dealer.

We illustrate a selection of parts that every Meccano boy will find useful in building the larger and more interesting models. Ask your dealer for a copy of the complete illustrated list of Meccano Accessory Parts, and keep it by you for reference.
