Nobody plans to mess up their life, the problem is that very few people plan not to. People do not like to think of themselves as fools but yet some of the smartest people we know have made some of the most life changing mistakes. The truth is every person behaves foolishly in some areas of life and needs to grow in wisdom. Reading and applying the book of Proverbs can help that growth and prepare us to be wise in almost every situation. This summer, Five Stones will study the Book of Proverbs in order to put into place the necessary safeguards to ensure a happy ending on our lives.
