

The Go Playground

[Run](#)[Format](#)[Imports](#)[Share](#)[About](#)

```
1 package main
2
3 import "fmt"
4
5 func main() {
6     fmt.Print("Hello World!")
7     fmt.Print("How are you doing?")
8
9     // start and end with a new line
10    fmt.Print("\nI am", 26, "years old\n")
11
12    // print non-string values
13    fmt.Print(1, 2, false, 3, 4, nil, true)
14 }
```

```
Hello World!How are you doing?
I am26years old
1 2 false 3 4 <nil> true
Program exited.
