

## Make a Cryptic Calendar With Some Basic Stuff!

by sus2540

Time plays a major role in our life. School sessions, meetings, gym schedule all are tracked in the calendars.

Plus, this is not a usual calendar. This would work on for years. You don't have to switch the calendar every year.

In this unique calendar the letters are so different. You mostly can't recognize what are those except you when you keep the window.

When you want to see the calendar from a long distance this would be so useful. You can know what's the

date and month so accurately.

So let's start making it.

### Supplies:

Cardboard

Template for the calendar(optional)

Markers

Scissors or a blade.
