

## Color Spinner for Creative Coloring

1. Using card stock or thick paper, print out this color wheel and arrow.  
(If you don't have card stock, try glueing thicker paper to the back to stiffen it.)
2. Cut out the color wheel and the arrow along the dashed lines.
3. Carefully poke a hole through each X.
4. Attach the arrow to the color wheel with a paper fastener.
5. Choose a picture to color, spin the arrow, and use the color the spinner selects for your coloring!
