

6th Grade

Mesopotamia Unit Planning with Midgley

Here is a sample of how I would like to try my plan for Mesopotamia. We would teach it in three weeks considering other unit plans.

We'd start my unit on Monday. We would end my unit on Wednesday. The days Thursday, where students do their own research for a grade. I might be able to use my unit on Friday.

We can use the unit on the next year of the calendar. I can keep my unit on an adjacent schedule to other units.
