MY 120 CHART

A 12x10 grid of colored squares. The colors transition from red in the top-left corner, through orange, yellow, green, cyan, blue, and finally to purple in the bottom-right corner. The grid is composed of 120 squares in total, arranged in 12 rows and 10 columns. The colors are distributed such that each row and column contains a variety of the gradient colors, with the most intense colors (red and purple) appearing at the corners.
