This document was created using linked text boxes, which allow articles to flow continuously across pages. For example, this article continues on page two, while the one to the right continues on page three. When you add lines of words to a text box, the words in the following text box flows forward. When you delete lines of words from a text box, the words in the next text box moves backward. You can link several text boxes in an article, and you can have multiple articles in a document. The links do not have to occur in a forward direction.

Inserting Linked Text Boxes

To insert linked text boxes in a document, click Text Box on the Insert menu. Click and drag in your document where you want to insert the first text box, and insert additional text boxes where you want the text to flow.
