

We Are Delivering More Value With SQL Server 2012!

Microsoft
ALL INCLUSIVE

* Microsoft prices are based on estimated retail price. All Microsoft and Oracle prices are per processor (based on a quad core Intel Xeon E7 Family processor) database pricing for purchases within the United States and are in United States dollars. Pricing is based on information available on vendor Web sites. Oracle prices are based on Oracle Technology Global Price List, October 20, 2011. IBM prices are based on single socket server configurations with Intel Xeon Processor E3 Family (4 core processor on x86 architecture, IBM Processor Value Unit (PVU) value of 100) and IBM DB2 Enterprise Server Edition Processor Value Unit (PVU) based price list. As of 11/30/2011 date. Reseller prices may vary.
