

```
HashMap<Character, Integer> charCountMap = new HashMap<Character, Integer>()
```

```
char[] strArray = inputString.toCharArray()
```

```
For all char c in strArray
```

Is
charCountMap.containsKey(c)?

Yes

```
charCountMap.put(c, charCountMap.get(c)+1)
```

No

```
charCountMap.put(c, 1)
```
