

## Email Template for Sourcing a Referred Candidate

Hi Dorothy,

I am Mark Hens from Gumtorque Tech and we had been looking for a javascript developer. Chris, one of our employees mentioned that you would be a good candidate for our requirements.

We require someone who has experience with the MERN stack and is good at creating user friendly interfaces with React. I have taken a look at your github profile and feel you should be able to handle our codebase with ease. Here at GT we look forward to building a community of passionate developers like you. Hence we would like to meet you.

Let us know if you would be available to attend a quick call sometime within this week. Also if you would like to get some information on anything related to our company or your position I will be happy to be of assistance.

Regards,

James Core
