Dear Emery Schmeler,

In response to your job posting for digital technology, I am including this letter and my resume for your review.

Previously, I was responsible for consulting on application architecture and participate in the Architecture Review Board and Applications Review team.

Please consider my qualifications and experience:

- Native in German/ French/ Swedish/ Danish/ Finnish or Norwegian and fluent in English
- Strong foundation in developing across digital devices, including desktop, mobile, tablet
- Understand agile metrics and reporting techniques
- Experience using Jira to track and make visible sprint backlog work flow preferred
- Improving event email management
- Use leading edge enterprise architecture practice to help shape the enterprise architecture of MA customers to enable digital agility, innovation and value
- Experiment with new digital technologies to create new solutions and transformational usage models
- Capture and publish reference cases for the practice

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,
Sawyer Kunde
