

Life Calendar (Dark Mode Public Copy)

This is a Life Calendar. It will automatically check off each week as you live it. Add the years you expect to live, change the birth date in the Start Date formula, and it will algorithmically do the rest. Table View shows Major Landmark tags, a total yearly completion view, and has a column for linked pages. List View shows each week individually.

Click here for the Light Mode version: hyperda.sh/lc/light

Here is a setup guide for your Life Calendar: hyperda.sh/lc/setup
