This is an annual report regarding the quality of water provided by the Board of Water Works of Contoso, Colorado during 2017.

EXECUTIVE SUMMARY

Water Works of Contoso Water proudly serves high quality water to 1.4 million people in the city of Contoso and many surrounding suburbs. Since 1918 we have expertly planned, developed and operated a complex system that provides clean, safe, great-tasting water. The utility is a public agency funded by water rates, new tap fees and the sale of hydropower, not taxes.

We are Colorado's oldest and largest water utility — Water Works of Contoso has a total water service area of approximately 300 square miles. Water Works of Contoso serves 25 percent of the state's population with less than 2 percent of all the water used in the state. The natural environment is our lifeline, and we help protect it by promoting wise water use. We take our water quality very seriously. Last year we collected more than 35,000 samples
