

Rolling Wheels Hub's Training 8-year Training Plan

Systems Orientation

Introduction to Automotive Technology

Engine Fundamentals

Engine Performance

Automotive Design

Machine Learning

Automotive Braking Systems

Engine Overhaul

Automotive Heating, Ventilation & Air Conditioning

Engine Maintenance

Shop Work

Introduction to Engine Systems

Diesel Fuel Systems

Introduction to Mechanical Design

Application of Engine efficiency

Machine Design

Automatic Transmissions & Transaxles

Gasoline Fuel Systems

Electromechanical Engines

Advance Application to Hybrid Automobiles
