

Realist:
Glass of water. Period.

Physical scientist:
The glass is actually full. It
has water in the bottom
half and air in the top.

Relativist:
Top is half empty, bottom is
half full. Both states exist
at the same time.

Utopist:
The water is on top and
the empty space below it.

Skeptic:
Is that really water in the
glass?

Nihilist:
Neither glass nor water
exists.
