EMBER 2019

T W T F S
1 2 3 4 5 6 7

Imagine a short hike along a streambed lined with long green grass, matted down by brown bears who, until recently, had set up camp to feed on spawning salmon. The salmon were determined to make it to the base of the same waterfall you're there to see, but thankfully, it's a little surreal to follow your guide.
