Options

[New SQL Server stand-alone installation or add features to an existing installation](#)

Launch a wizard to install SQL Server 2019 in a non-clustered environment or to add features to an existing installation.

[Install SQL Server Reporting Services](#)

Launch a download page that provides a link to install SQL Server Reporting Services. An internet connection is required.

[Install SQL Server Management Tools](#)

Launch a download page that provides a link to install SQL Server Management Studio, SQL Server Data Tools, SQL Server PowerShell provider, SQL Server Profiler and Database Tuning Advisor. An internet connection is required.

[Install SQL Server Data Tools](#)

Launch a download page that provides a link to install SQL Server Data Tools (SSDT). SSDT supports Microsoft Azure SQL Database, the SQL Server Database Engine, Reporting Services, and Analysis Services. An internet connection is required to install SSDT.

[New SQL Server failover cluster installation](#)

Launch a wizard to install a single-node SQL Server 2019 failover cluster. This action is only available in the clustered environment.

[Add node to a SQL Server failover cluster](#)

Launch a wizard to add a node to an existing SQL Server 2019 failover cluster. This action is only available in the clustered environment.

[Upgrade from a previous version of SQL Server](#)

Launch a wizard to upgrade a previous version of SQL Server to SQL Server 2019. [Click here to first view Upgrade Documentation](#)
