

# Timeline Title

## Timeline Instructions

- To delete these instructions, click the text box and press the **DELETE** key.
- To replace text in a timeline event, click the arrow text object, select the existing text, and begin typing.
- To move a timeline event, drag the arrow text object to the location you want.
- To create additional timeline events, copy and paste the arrow text object you want, and then drag the object to the location you want.
- To replace dates on the timeline, click the timeline text box and use the **TAB** key to select the dates you want to change. To add additional dates on the timeline, point to **Insert** on the **Table** menu, and then click **Columns to the Left** or **Columns to the Right**.
