Sunday

A 6x7 grid of squares. Each square has a colored border and a small folded corner in the top-right. The colors of the borders repeat in a 2x3 pattern across the columns: dark green, red, light green, purple, orange, and blue. The first column has a dark green border, the second a red border, the third a light green border, the fourth a purple border, the fifth an orange border, and the sixth a blue border. The seventh column has a pink border. The folded corner is a small rectangle in the top-right corner of each square, colored to match the border of the square it belongs to. The grid is composed of 42 squares in total.
