

3D SNOWFLAKE

FREE TEMPLATE AND INSTRUCTIONS

3 D PAPER SNOWFLAKE

This 3D paper snowflake looks complicated but is really easy to make!

INSTRUCTIONS

STEP 1: Print out the snowflake template page.

STEP 2: Cut out each square.

STEP 3: Bring folding the first square. Fold along the dotted lines so you end up with a small triangle with the straight lines facing up.

STEP 4: Now cut along the straight lines, being careful not to cut all the way through.

STEP 5: Unfold your square.

STEP 6: Lift the smallest center pieces and tape them together in a tube. (two pieces).

STEP 7: Turn the paper over and do the same thing with the next set of pieces. Tape.

STEP 8: Turn the paper over again and repeat until all pieces are attached. Now you have one section of your snowflake!

STEP 9: Do the same steps for all six sides of your snowflake.

STEP 10: When all sides are complete, tape or staple the together to form one large snowflake! Add string and hang from a window or even on a Christmas tree!
