Tirelessly served in a 20-bed ICU for trauma, post-surgical, and neurological injuries. Use this opening paragraph to pen your previous position detail. Core responsibilities should be bulleted in list of not more than five points including noteworthy accomplishments and achievements. This paragraph is optional.

- List work experience in reverse chronological order and if you have a lengthy employment history, consider including the most recent and relevant experience.
- Enlist job title first followed by your specialty. Use job title mentioned in the job posting or use an industrywide title e.g., Registered Nurse opposed to Clinical Nurse.
- Employment start/end dates can be listed in a number of ways. It is not necessary to provide complete dates on resume. You can simply list as (mm/yyyy - mm/yyyy).
- Providing organization-specific information where you have served, is important to employers. Do not forget to mention Trauma level, facility designations, total hospital or unit beds and patients' demographics.
