Heat Stress - UAE LAW

Heat stress is a major factor in safety
in the Gulf, especially during the
summer months.

UAE's Ministry of Human Resources
and Emiratisation will specify a
mid-day work break during the
summer months. Fines for breaking
the rule amount to:

- AED5,000 for each labourer
- Not exceeding AED50,000

Nevertheless, even outside of the
hottest hours, summer work is
exhausting, and many companies
employ their own measures to
improve worker safety and hydration.
