

February

FREE FEBRUARY NEWSLETTER TEMPLATE IN PINK

SUBHEADING

This template contains two paragraph articles and a sidebar for bullet points in a pink theme with the wordart title for February and a red heart. Replace with your own replaced with photos or your own clipart. You can also replace any of the text sections with a photo by going to Insert > Picture > From File and selecting the photo from your computer.

You can make all of the text pink, but the article text is currently gray

for easier readability. Change font color by clicking on the border of the text box so it is selected and then go to Format > Font and change font color from the selection box or other text attributes.

Change font color by clicking on the border of the text box so it is selected and then go to Format > Font and change font color from the selection box or other text attributes. Free Template by: worddraw.com

INCLUDE THE SECOND TITLE FOR YOUR INFORMATION

SUBTITLE TWO

If you need additional help creating your newsletter, try the Microsoft Word Help which I always found very helpful and complete. The remainder of the text is for placeholder purposes and is not part of the information relating to using and creating your childcare service document.

A mother should provide a safe clean and friendly environment for her children's care. Any daycare has plastic toys that can be washed with a mild detergent to avoid the spread of germs. It also encourages social interaction at a young ages that is very good indeed for tots to

play and interact with each other before the start of primary school when groups legal guardianship of the child.

Change font color by clicking on the border of the text box so it is selected and then go to Format > Font and change font color from the selection box or other text attributes. Change font color by clicking on the border of the text box so it is selected and then go to on the border of the text box so it is selected and then go to Format and Font and change font color from the selection box or other text attributes.
