

A black and white line drawing of a flowering branch, likely a cherry blossom. The branch curves from the upper left towards the right. It features several open flowers with five petals each, showing prominent stamens and central pistils. There are also several buds at various stages of development along the branch. The drawing is simple and elegant, using only outlines.

A black and white line drawing of a flowering branch, likely a cherry blossom. The branch curves from the upper left towards the right. It features several open flowers with five petals each, and several buds at various stages of development. The drawing is simple and elegant, with clear outlines and no shading.
