Charleston, SC 29407

Oliver Pluff & Co

Colonial Blend

COLONIAL COFFEE

GROUND

Coffee Beans - East Indies & Jamaica

In colonial times, coffee had strong competition from wine, liquor, and imported teas, and consequently it did not attain the vogue among colonists until their agitation against King George, and the hateful tea tax, which is undoubtedly responsible for America becoming a nation of coffee drinkers instead of tea drinkers. Coffee was supplied to the American colonies by trade from the East Indies (Sumatra), and the islands of Haiti and Jamaica.
