

To whom it may concern

I am submitting this letter to support Martha John's application for immigration to New Zealand.

My name is William George. I am a permanent citizen of New Zealand and work in a railway department here. I have known Martha for three years since she started living next door.

During this period, I found her a kind and hardworking lady. She is very famous in our local community, and everyone respects her. She helps everyone, particularly elderly neighbors. Sometimes she shovels driveways of all the neighborhoods in winter.

If her application of immigration is approved, she will continue to help the local community for sure. I strongly recommend her and request to accept her application. Please, feel free to contact me if you have any further questions.

Sincerely,
William George
